

Psychology

Invented By Unbelievers For The Unsaved

The wicked, through the pride of his countenance,
will not seek after God: **God is not in all his thoughts.**
Psalms 10:4

Psychology was never meant for the Christian. Psychology was created by such Bible-rejecting men as Freud, Jung, Rogers and Maslow. Being a Christ-rejecting theory, psychology has more to do with philosophy and mysticism than it does with the Holy Bible.

Psychology was rejected by all Bible-believers when it first was introduced in the 1800's. There have always been ungodly theories about God, man, sin and human behavior. Psychology is the dominant theory that has become accepted by modern churches.

Christians who knew their Bibles saw psychology as another attack upon how God deals with human behavior. God has already provided for Christian living. (2 Pet. 1:3). Liberal churches were the early adopters of psychology. Those who were furthest from the Bible were the first ones to embrace psychology. Evangelical churches followed. Its acceptance is perhaps now mainstream. When churches depart from the faith psychology is welcomed.

There are still some Christians today who believe the Bible and reject psychology. There has always been a remnant of people of faith desiring to fully believe all of God's words.

Instead of following God-doubters, let us follow the example of great people of faith such as Abraham, David, Esther, Daniel, John and Paul. May we trust God's very words, understanding the times in which we live.

And have no fellowship with the unfruitful works of darkness,
but rather reprove them. Ephesians 5:11

James Utter
